Dear Gildong Hong,  
Reviewers have now commented on your paper. As you will see from the comments below and on <https://submit.jcmsh.org>, publication in its present form is not recommended, and minor revision is being requested. Please consider the reviews to see if revision would be feasible. Should you wish to resubmit you should explain how and where each point of the reviewers' comments has been incorporated. For this, use submission item "Author response" when you upload your revision.  
Also, indicate the changes in marked changes version of the revised manuscript (submission item "Revision, changes marked"). Should you disagree with any part of the reviews, please explain why.  
As it is in the interest of authors to have a short turnaround time, we kindly ask you to submit the revised manuscript as soon as possible but within 40 DAYS. If the revised manuscript is not submitted before the deadline, the manuscript will be considered withdrawn.  
To submit a revision, go to <https://submit.jcmsh.org> and log in as an author. You will find your submission record under Submission(s) Needing Revision.  
Thank you for submitting your work to the Journal of Clinical Movement Science in Human.  
With kind regards

The Editorial Office
